

California OES Weather Threat Briefing

Saturday, November 13, 2021
9:00 AM PST

Day 1 (Saturday): Areas of dense fog will continue across portions of the Central Valley through late morning, redeveloping again overnight. Locally breezy winds will bring some areas of elevated fire weather conditions to the southern California mountains today as well.

WEATHER KEY POINTS

11/13/21 - 11/19/21

Saturday-Friday

- Areas of dense fog will continue each night and through the late morning hours across the Central Valley through Tuesday, bringing poor visibility at times
- Locally breezy winds will bring some areas of elevated fire weather conditions to the southern California mountains on Saturday and Sunday
- Otherwise, no significant or impactful weather is expected through much of next week. Some showers and breezy conditions look to return to northern California early in the week, bringing mainly light rainfall amounts, with additional showers possible again toward Friday.
